PROJECTS

Films Library (Group project)

Stack: HTML5/CSS3/Javascript/RWD/Api/Firebase

Team leader of a group project based on javascript. My task was to code review, ensure the timeliness of the tasks performed, program the home page and user login panel using Firebase. The user on the website has the ability to view movies from the provided api database. After logging in, the user gets the option to add movies to his own library.

Filmoteka (React project)

Stack: HTML5/CSS3/Javascript/React/react-router /React Context/Hooks/Api/css-modules/RWD

Application based on React library using hooks. The website design takes into account the use of Api, loaders, css-modules, react routing, react context and lazy loading.
